Thanks, Rick. Just to clarify, are we cleared to send this to FDACs given the clarification below?

Per my conversation with Eric Bohnenblust, the presentation only contains info from the redacted risk assessment and the non-CBI Section G.

Thus, the inert ingredient info is not CBI and nothing in the presentation is part of what they claimed CBI post EUP issuance.

Two questions:

- Just confirming that the discussion of the inert ingredient is not CBI
- Just confirming that nothing in this presentation is information that the company post-EUP issuance claimed as CBI.

Hi Rick, the Oxitec EUP briefing for FDACs went well this morning. The team did a great job and the FI folks were appreciative. They asked for a copy of the slides. OGC has cleared them so I wanted to send them through the chain. We believe that FI could publicly release the slides at some point.

Importance: High

Mike,

Chris asked me to take a look at this PowerPoint after all. Reviewing for content (as opposed to CBI), I only have one comment: Ex. 5 Attorney Client (AC)

Ex. 5 Attorney Client (AC)

Ex. 5 Attorney Client (AC)

there is no CBI.

Thanks.

Chris,

Can you look at and advise today? No CBI. We plan on sharing with Florida via Skype tomorrow. Thanks!
